Food for Thought Challenge

2023

Every May, Community Action Agencies across the country, including the Jewish Renaissance Foundation (JRF) & Puerto Rican Action Board (PRAB), come together with other partners to build awareness around poverty and food insecurity.

"Food for Thought" is a half day, in-person interactive experience that brings awareness through a visual representation of the issues of poverty in Middlesex County. 100 current leaders and future leaders will participate in the innovative structured experience. This Challenge is a unique dining event most will never forget.

Please join us as we raise awareness and discuss immediate action steps to fight rising poverty, hunger, and unemployment.
